

	Small to Medium Size Trays			Large Size or Multiple trays			High Output Automated Systems	
	TE39	TE45	TE46	TE43	TE47	TE48	TE60	TE300
<b>Tray Material</b>	PP PET	PAPER	PAPER PET PP	PP PET	PAPER	PAPER PET PP	PET PP	PAPER PET PP
<b>Lid Material</b>	PP PET	PAPER PET	PAPER PP PET	PP PET	PAPER PET	PAPER PP PET	PET PP	PAPER PP PET
<b>Sealing Options</b>	PP to PP PET to PET	PAPER to PAPER PAPER to PET	PAPER to PAPER PAPER to PP/PET	PP to PP PET to PET	PAPER to PAPER PAPER to PET	PAPER to PAPER PAPER to PP/PET PP/PET to PP/PET	PP/PET to PP/PET	PAPER to PAPER PAPER to PP/PET PP/PET to PP/PET
<b>Output</b>	500	500	500	500	500	500	1000	1200
<b>Max Tray Size</b>	23 cm x 18 cm	26 cm x 19 cm	26 cm x 19 cm	33 cm x 27 cm	34 cm x 34 cm	33 cm x 27 cm	33 cm x 27 cm	27 cm x 19 cm
<b>Other</b>	Automatic cycling and foil cutting (tray shape)  Adjustable time control for heat sealing period	Electromagnetic locking mechanism  Spring activated hotplate  Adjustable time control for heat sealing period  Automatic cycling	Electromagnetic locking mechanism  Spring activated hot plate  Automatic cycling and foil cutting (tray shape)	Automatic cycling and foil cutting (tray shape)  Adjustable time control for heat sealing period	Electromagnetic locking mechanism  Spring activated hot plate  Timer  Automatic cycling and foil cutting (tray shape)	Electromagnetic locking mechanism  Spring activated hot plate  Timer  Automatic cycling and foil cutting (tray shape)	Automatic cycling and automated foil cutting (tray shape)  Adjustable time control for heat sealing period	Automatic cycling and automated foil cutting (tray shape)  Servo controlled conveyor system and PLC Unit  Adjustable time control for heat sealing period
